PROFILE

Application Engineer with **4.7+ years** of experience designing, developing and deploying **LabVIEW-based test & measurement systems** for aerospace, nuclear, space, power and consumer electronics clients. Hands-on with instrument automation, multi-sensor data acquisition and industrial protocols, and uses **Python, ROS and computer vision** for robotics and intelligent monitoring. Looking to bring this LabVIEW experience to innovative projects.

EXPERIENCE

Application Engineer Feb 2024 – Present
Ducom Aerospace Pvt Ltd · Bengaluru

- Develop **LabVIEW-based test & measurement software** for tribology testing systems.
- Acquire and process data from **force, temperature, humidity, vibration and acoustic emission** sensors.
- Build Python computer vision pipelines for image annotation, segmentation, facial detection and facial landmarks to **track human movement for surveillance**.
- Develop robot movement mapping and **live video visualisation** for a land robotic platform.

Tech: LabVIEW, Python, OpenCV, TensorFlow, MediaPipe, YOLO, DeepSORT, ROS, Gazebo, RViz, SLAM

LabVIEW Developer Sep 2021 – Jan 2024
Access Automation Pvt Ltd · Bengaluru

- Delivered **7 end-to-end automated test & DAQ systems** for clients including **ISRO (SAC), NPCIL, Tata Power, LG India, GACL, Electrohms** and **Oman Fiber Optics**.
- Integrated instruments from Keysight, Yokogawa, HIOKI, Anritsu, EXFO, Advantech and Motwani, plus Mitsubishi FX5U PLCs, over SCPI, GPIB, Modbus and TCP/IP.
- Built automated reporting and remote monitoring dashboards for test data analysis.
- Suggested improvements that made delivered systems run better and fed into new product features.

Tech: LabVIEW, ATE, DAQ, SCPI, GPIB, Modbus, RS-485, PLC integration, Report Generation

KEY PROJECTS

DAQ & Reporting Software for Antenna Testing SAC · ISRO
Configures antennas (frequency, bandwidth, measurement specs), controls DUT/feed positioners and measures radiation patterns.
HW: Keysight MXG N5183B, PNA-X N5264B, Power Meter, Spectrum Analyzer E4446A, positioners

Transformer Testing Bench & Software TATA POWER
Automated bench for no-load, full-load, temperature rise, vector group, magnetising current, magnetic balance, DVDF, HV, turns ratio, winding & insulation resistance tests.
HW: Yokogawa WT500, Motwani XTRM-3A / XWRM-25A / 5 kV IR Tester, FX5U PLC

KEY PROJECTS (CONTD.)

Perimeter Automated Detection System NPCIL · KAKRAPAR APP

Monitors and acknowledges alarms from microwave detectors and PIR sensors across the plant perimeter detection area.

HW: Advantech ADAM-4050, ADAM-4060

Power Consumption Test Automation LG INDIA

Automated monitoring, recording and display of test parameters from power analyzer, proximity sensor and PLC; data used for analysis and report generation.

HW: HIOKI PW3335, Mitsubishi FX5U PLC

Cell Voltage Monitoring System GACL INDIA

Networked DAQ interfacing **19 Yokogawa GM10** units for continuous voltage acquisition and remote monitoring.

HW: Yokogawa GM10 × 19

ATE Software for Frequency Response ELECTROHMS INDIA

Controls AWG and oscilloscope to generate optimal input signals, measure RMS values and compute frequency response in dB (20·log Gain).

HW: Keysight 33210A AWG, Keysight DSO-X 2012A

ConnectOTDR OMAN FIBER OPTICS

Optical fibre test software measuring wavelength, resolution, pulse width and distance.

HW: EXFO FTB-500, Anritsu MT9085

OPEN-SOURCE PROJECTS

LabVIEW ↔ Python AI Bridge

Streams LabVIEW DAQ data into a Python ML backend for real-time predictive maintenance.
